「我希望擁有一部iPad 發展我的網店。」

“I wish to have an iPad
for my online store
development.”

子朗 Alvis, 8
蘭格罕細胞組織球增生症
Langerhans Cell histiocytosis

子朗年紀小小，卻已經是一名網店店主「Alvis Shop」。他在治療期間留意到媽媽網上購物的習慣，於是自己做資料搜集，建立了屬於自己的網店，更獲得了醫生、護士和親戚的支持。

子朗十分有主見，並常常花時間鑽研自己的興趣。他每次經過超級市場，都會逗留收銀機附近觀看，留意POS系統。

Despite still being a kid, Tsz Long is already the owner of an online store “Alvis Shop”. While he was receiving his treatment, he noticed his mother’s habit of online shopping. He then did some research and build his very own online store. His relatives and even the doctors and nurses became his customers.

Tsz Long has lots of ideas and spends a lot of time studying things he likes. Every time he visits a supermarket, he likes to stand near the cashier and watch how the POS system works.

願望故事 WISH STORY

願望團隊答應幫他向同事宣傳網店，更下了訂單，讓他等待實現願望期間可以處理訂單。

家人對子朗的支持

到訪子朗家裡期間，團隊留意到四處貼著子朗的網店資訊，包括發貨流程等，家人更特意擺放了一個櫃讓子朗存貨。團隊又留意到子朗用手寫形式為各式各樣的貨物寫上標籤，於是特別為他送上一部標籤機。子朗驚喜不已，原來他早前的生日願望正是擁有一部標籤機。

子朗積極發展自己的網店生意，並希望透過iPad學習剪片。得知自己的願望即將實現後，他事前做足功課，對比了不同的平板電腦型號。

認真對待每個願望

除了為子朗送上iPad，願望團隊更邀請HKTvmall安排參觀活動，向子朗介紹HKTvmall的網店運作。HKTvmall非常認真對待是次邀請，更視子朗為商業合作伙伴，準備了詳盡的簡報彙報。另一方面，子朗亦非常成熟、非常留心投入，除了細心打扮，穿著自己最喜愛的粉紅色上衣，更準備了一些問題請教HKTvmall團隊，例如會員制度、如何成為合作伙伴、如何將自己的貨品上架到HKTvmall等等。

媽媽：「很久沒有看到子朗笑得這麼開心。你們都很細心，留意到子朗的需要。」

在願望日，子朗和家人親手做了豆沙包送給我們，以答謝我們對他網店的支持。

團隊設計的心意卡成為子朗的網店標誌

願望團隊送給子朗一張願望成真卡，上面寫滿大家對他的祝福語。子朗十分喜歡這個設計，所以決定以這張心意卡成為他的網店標誌。

子朗願望屬「賽馬會願望樂園計劃」，計劃由香港賽馬會慈善信託基金捐助

Jockey Club Wish Planet Project funded by The Hong Kong Jockey Club Charities Trust

The Wish Team promised to recommend his online store to their colleagues. They also ordered something so that Tsz Long can take care of the orders while he waits for the Wish Day to come.

With the Full Support of Family

While visiting Tsz Long's home, the Wish Team noticed there were notes of Tsz Long's online store posted everywhere, including information about the delivery process, etc. His family even got him a cupboard for his inventory. The team also noticed Tsz Long handwrites labels for different merchants. Therefore, they surprised him with a labeller. Tsz Long was so amazed as this was actually his birthday wish.

Tsz Long has been actively developing his online store's business. He hopes to learn video editing skills through an iPad. After knowing he's granted a wish, he did some research and compared different tablet models.

Prepare Every Wish with Heart

Besides giving Tsz Long an iPad as a gift, the Wish Team invited HKTvmall to arrange a tour to introduce Tsz Long to the operations of HKTvmall's online store. HKTvmall takes this invitation seriously. They treat Tsz Long as a business partner and prepared a detailed presentation. On the other hand, Tsz Long was very mature and attentive. He wore his favourite color, pink, and even prepared some questions for the team from HKTvmall. For example, the membership programme, how to become a business partner, and how to sell his merchants on HKTvmall.

Tsz Long's mother said, "I haven't seen Tsz Long smile so happily in a while. You are all very considerate and you know what he needs".

On Wish Day, Tsz Long and his family made us some dorayaki, to thank our support to his online store.

The message card designed by our team became the logo of Tsz Long's online store

The Wish Team gave Tsz Long a Wish card, with everyone's blessings written on it. Tsz Long liked it very much so he decided to use it as the logo of his online store.

創作力量 童夢想

Power of Creativity Make Wish Come True

「我希望製作8間玩具屋！」

“I wish to create 8 identical LEGO homes!”

Carys, 10

橫紋肌肉瘤 Rhabdomyosarcoma

10歲的Carys非常熱愛以LEGO創作屬於自己的模型，閒時都會觀看一些網上的教學影片，然後融合自己的創意去設計一些LEGO小擺設。患有橫紋肌肉瘤的她，在治療期間長期留在家中，反而令她有更多時間，去創作更大更複雜的LEGO玩具屋，然後把小擺設和傢俬都放在玩具屋裡，享受成為一位室內設計師的樂趣。

「我希望可以親手建立一間屋，送給家人及照顧過我的哥哥姐姐。」

機緣巧合之下，Carys在願望成真基金的網站，看到另一個關於LEGO的願望故事，一個念頭油然而生 - Sharing is caring - 她希望透過分享自己的LEGO創作，去答謝家人，和一群在患病期間照顧過她的醫護和機構。然後，我們開始與Carys討論她夢想中的玩具屋，有多少層？有多少個房間？裡面有甚麼傢俬擺設？人物設計會是怎樣的？當Carys有了初步的構想之後，她跟我們說希望可以複製8間一模一樣的玩具屋，一間放在家中，另外7間送給幫助過她的人。

沒有，不可能的任務

當聽到Carys希望製作8間玩具屋這個龐大工程後，願望團隊立即行動，並有幸得到「樂高專業認證大師」Andy和一班義工的相助，把不可能變成可能。一連7日，我們安排Carys到Andy的工作室，在她專屬的工作枱上工作。由於工作室裡充斥著大大小小形形色色的LEGO組件，Carys一進去便眼睛發亮！

在這7天裡，Andy負責協助Carys設計她的玩具屋，Carys家人與願望團隊的義工們分工合作複製另外的7間。看似不可能的任務，最終大功告成。

現在，其中一間玩具屋，更有幸放在願望成真基金辦公室。謝謝你Carys！

10-year-old Carys is very passionate about creating her own designs using LEGO. In her leisure time, she would watch tutorial videos online and combine her own ideas to create small LEGO decorations. Being diagnosed with rhabdomyosarcoma, she spends long periods at home receiving treatment. This has given her more time to create bigger and more complex LEGO homes, as well as put her LEGO decorations and furniture into these homes, experiencing the joy of being an interior designer.

“My wish is to personally build a home and give it to my family and the people who have taken care of me.”

Coincidentally, Carys saw a Wish Story relating to LEGO on our Make-A-Wish website. She spontaneously thought of an idea: Sharing is caring. She hoped to thank her family, the medical staff who have taken care of her throughout her treatment journey, and Make-A-Wish by sharing her own LEGO creations. Afterwards, we started discussing with Carys what her dream LEGO home would look like. How many floors would there be? How many rooms will it have? What type of furniture would there be? How will the characters be designed? After Carys had an initial idea of what she wanted, she told us that she hoped to create 8 identical LEGO homes. She would keep one at her house and give the remaining seven to the people who have helped her.

There is no impossible task

After listening to Carys' Wish to create 8 identical LEGO homes, the Wish Team immediately got to work. We had the honor of getting the help from Lego Certified Professional Andy and a team of volunteers to make this impossible project possible. For 7 consecutive days, we arranged for Carys to work at Andy's studio and have her own designated work station. When Carys entered the studio that was filled with LEGO pieces in all shapes and sizes, her eyes immediately lit up.

In these 7 days, Andy assisted Carys in designing her LEGO home, while Carys' mother took time off from her job to work with the Wish Team volunteers to make the 7 other identical LEGO homes. This project that looked impossible was finally accomplished.

We now have the pleasure of having one of the LEGO homes in our Make-A-Wish office. Thank you, Carys!

「我想成為遊戲設計員」
 “I wish to be a Game Programmer”
 Brian, 21

急性淋巴白血病 Acute Lymphoblastic Leukaemia (ALL)

「設計遊戲就是我夢想的人生角色」 “Designing Games Is The Dream Role In My Life.”

願望童Brian希望成為遊戲設計員，全因治療期間，收到一部遊戲機。其中一個遊戲讓他印象深刻，不但陪伴他在醫院大部份的時間，更讓他專注投入在遊戲中，分散一些注意，所以他慢慢萌生設計遊戲的想法，希望透過遊戲幫助同樣經歷或者面對困難的人。

這個意義十足的願望令願望團隊十分動容，亦馬上聯絡合作伙伴，香港著名的手機遊戲開發商兼營運商之一Madhead參與這個願望歷程。

在半年期間，願望團隊為Brian設計願望，進行模擬面試，關心他在Madhead的情況，團隊見證他由戰戰兢兢，擔心自己面試的表現到充滿信心分享自己的經歷，完全感受到他對遊戲設計的熱愛。

Brian分享：「實現願望前，我想像過如果我可以選擇一間遊戲公司工作，我希望能夠加入Madhead團隊學習。我真的沒法想像現時我有這個機會！這兩個月，我真的大開眼界。一開始由十樣搞不懂的事情，到逐件逐件解決，我學懂了十件事情，這份滿足、成就感是無法取代的。我更第一次接觸了遊戲引擎，見識課本以外的知識，現在的我更確定自己將來的目標，好好珍惜現時學到的知識，盡力填補不足的地方，積極裝備自己！」

Madhead創辦人Terry：「Little things make a big difference! 一收到願望成真基金的邀請，我們一口答應，並很高興見證Brian實現願望。無論對我或者同事，這個願望都可以帶來很大的影響。」

實現願望後，Brian更不時參與義工活動，希望為基金出一分力，讓更多願望童可以擁有改寫一生的願望。

Brian's Wish of becoming a game programmer came from receiving a game console during his medical treatment. Gaming kept his company at the hospital. It helped distract his attention and inspired him to become a game programmer. His Wish is to design games that helps people facing similar medical situation to overcome the difficulties during recovery.

This meaningful Wish touches our Wish Team deeply. The Wish Team immediately contacted our partner Madhead, an award-winning mobile game developer and distributor from Hong Kong, to participate in Brian's Wish journey.

During the half year of his Wish journey, the Wish Team helped Brian to accomplish his Wish, practised mock interviews with him and closely monitored his situation at Madhead. The Wish team witnesses his growth from being nervous about his interview performance, to becoming very confident sharing his experiences. The Wish team can fully feel his passion towards game programming.

Brian shared, “Before fulfilling my Wish, I imagined if I could choose working in a game developer company, I would like to go to Madhead to learn. I can't imagine I have the opportunity now! During the two months of work experience, it has really opened my eyes to the industry. I started off as being inexperienced, then I learnt how to tackle problems faced at work one by one. The sense of accomplishment from learning new things at work is irreplaceable. I also touched on a game engine for the first time, which is something you won't learn on a textbook. Now that I am more certain about my future career goal, I will cherish the knowledge I learnt from this experience and work on my shortcomings to better equip myself.”

Madhead's founder Terry responded, “Little things make a big difference! As soon as we received the invitation from Make-A-Wish, we agreed to help Brian without hesitation. We are so happy to witness Brian's Wish come true. This Wish means and influences a lot, not just to me but also to my team.”

After fulfilling his Wish, Brian participates in volunteer activities from time to time, hoping to contribute to Make-A-Wish so that more wishful children could rewrite their lives.

【賽馬會願望樂園計劃 - 一起過中秋】

The Jockey Club Wish Planet Project -
Celebrate Mid-Autumn Festival Together

願望成真基金在今年中秋節期間分別為香港兒童醫院住院病童、醫護人員及職員準備了不同的線上中秋活動，讓大家在這個象徵溫馨團圓的日子裡，一起感受濃厚的節日氣氛。

我們一連兩星期舉辦了中秋節線上特備活動讓住院病童參加。活動中，小朋友與爸爸媽媽合力製作獨角獸造型燈籠，既可愛又充滿溫情。我們亦為醫護人員和職員舉辦了「花·燈·籠」為主題的照顧者工作坊。活動以園藝結合藝術創作，參加者利用乾花材料製作押花燈籠。活動不但應節，更能讓參加者認識不同園藝活動如何為病童帶來療癒身心的力量。

願望團隊很高興聽到參加者分享從中體驗到園藝活動的好處和樂趣，而且可以製作節日心意禮物，十分有意義！

This autumn, Make-A-Wish had prepared different online festive activities for child patients, healthcare professionals and staff at the Hong Kong Children's Hospital ("HKCH") respectively, so they could all revel in the joy of the Mid-Autumn Festival.

We held two seasonal online visits for child patients at the HKCH. Together with their parents, child patients created adorable unicorn lanterns which were full of love. We also organized a workshop for healthcare professionals and staff at HKCH with the theme -- "Flowery lantern". Participants used pressed flowers to design their own flower lanterns. The festive activity allowed participants to experience and appreciate the benefits brought to child patients through workshops incorporating horticultural activities with art.

We are glad to hear participants sharing that they were able to experience the benefits and fun of horticultural activities, and it was meaningful to create a festive gift at the workshop!"
